

U.S. Olympic Museum

REQUEST FOR COST PROPOSALS

Request Subtype: Site Utility Contractors

Project Title: Request for Cost Proposals for U.S Olympic Museum Project

GE Johnson Construction Company is soliciting lump sum cost proposals for site utility services for the United States Olympic Museum project.

Project Description: This project consists of an approximately 64,000 SF state-of-the-art thematic museum celebrating the Olympic and Paralympic movements. The Project will include lobby space, exhibit spaces, retail space, a restaurant, studio space, special event space, administrative offices, back-of-house space, and a significant exterior plaza.

The project aims to build not just a new museum, but an Olympic Experience unique to this country. The museum will present the history, artifacts, media, and collective memories of the Olympic and Paralympic Games along with other interactive experiences that attest to the universal power of the Olympic movement.

Minimum Qualifications:

Relevant experience in complex and phased site utility installations. Contact Cory Wight with GE Johnson Construction Company at (303) 507-9226 to request the Invitation to Bid and Project Documents.

Selection Criteria:

Qualified firm selection will be based on best value, including past performance, cost, and ability to meet the project schedule. Selected firm will be required to comply with items identified within the Invitation to Bid, including the General and Specific Trade Requirements.
